

# Join us for the 2023 Marine Debris Plunder!

A community initiative to remove  
marine debris from our waterways

**Date:** Sunday, October 22, 2023

**Time:** 11:00 AM to 3:00 PM

**Location:** Ørsted West Ocean City O&M Facility  
12905 Harbor Road, Ocean City, MD 21842

## Ahoy, Mateys!

Avast ye! It's time to embark on a noble quest to rid our beloved waterways of marine debris. Whether you're a seasoned sailor, a fearless kayaker, a stand-up paddleboarder, or even a landlubber, your help is needed to keep our seas pristine.

## What to expect

- A day of adventure and camaraderie
- A chance to make a lasting impact
- Access to supplies and trash tally sheets (pre-registration is appreciated)
- Beautiful views and a rewarding experience
- Receive a commemorative shirt and food by bringing debris to the site

**Captain Jack Sparrow**, in partnership with **MD Coastal Bays** and **Ørsted**, will be eagerly awaiting your arrival to collect your valuable finds.

## Registration

Scan the QR code below to register in advance and secure your supplies and trash tally sheets.

# Skipjack Wind

Building a cleaner, greener future –  
one rotation at a time

## The project at a glance

Skipjack Wind's commitments will inject over \$735 million into the State of Maryland

The project will create thousands of short-and long-term construction, supply chain and operations jobs

Skipjack Wind will generate enough energy to power nearly 300,000 Delmarva homes

## Environmental stewardship

Ørsted is committed to building and operating offshore wind in a way that's environmentally responsible. This is of vital importance in an area like the Delmarva Peninsula, which is home to numerous diverse and unique ecosystems, from the Chesapeake Bay to its saltwater marshes.

## Bringing thousands of jobs, clean energy, and transformative infrastructure to Delmarva

From residents to companies, everyone can reap the benefits of the growing offshore wind industry, gaining quality jobs, new business opportunities, and local investment. As the U.S. leader in offshore wind, Ørsted is uniquely positioned to serve the states of Maryland and Delaware as a trusted, long-term partner in clean energy.
